

Congratulations! You have been accepted to the A100 Program as a Pre-Apprentice.

You were accepted because you demonstrated a passion for, and dedication to, learning the art of computer programming. In the A100 Program, we'll work together as you take the next steps in your journey towards becoming an A100 Apprentice and, ultimately, a professional software developer. It won't be easy but the prize will be the valuable knowledge of programming fundamentals you gain, the portfolio of interesting projects you build, and your acceptance as an Apprentice in a future Cohort.

To confirm your acceptance please take these 4 steps **within 72 hours**:

- 1. Sign the Terms and Conditions of the A100 Program** and email an electronic version to a100@indie-soft.com.
- 2.** Sign up for a Gmail account using a professional-sounding email address. This address should be your real name or as close as possible. The A100 Program requires you to use Google Calendar for all scheduling needs and this address will be the primary method that our staff, Partner Companies, and other members of the Program use to contact you.
- 3.** Complete the [Pre-Apprentice Info Form](#).
- 4. [Join the A100 Developer Community Meetup group](#).** You will receive more information regarding these meetings soon.

We will share contact information for the A100 Program Team via Google Drive before the Cohort begins. In the meantime, if you have any questions or concerns, attend the next [StudyHall](#) Meetup nearest you, or email us at a100@indie-soft.com.

We will update you on the official location and times for the Cohort in the coming weeks.

Again, congratulations on becoming a Pre-Apprentice! We look forward to having you in the Cohort.

The A100 Program Team
